Empower your community

with a KESAB presentation, workshop or tour

Which Bin: Waste and Recycling Presentation

Learn about the what, how and why of waste and recycling. An interactive presentation covering:

- what goes in each bin (and what doesn't)
- where waste goes after collection: the importance of recycling and food organics recovery
- electronic waste and other tricky items.

Approx 60 minutes

First session $425+GST
Consecutive sessions $195+GST

Conscious Cooking

Discover kitchen tips and tricks to make the most of your food, using everything possible whilst being conscious of energy, water and waste. Explore new ingredients or twists on old favourites that freeze well to save you time and money.

The workshop is run as a demonstration with participants invited to help, and samples to try throughout. This session requires kitchen access.

Approx 60-90 minutes, max 25 participants

First session $825+GST
Consecutive sessions $450+GST

Composting or Worm Farms

Our garden expert can visit your site to demonstrate how to establish and maintain a healthy compost or worm farm. A great session for community gardens, this workshop can also be run as an indoor presentation.

Our expert can advise on best compost or worm farm systems options for your site.

Approx 60 minutes

First session $475+GST
Consecutive sessions $195+GST

DIY Cleaning and Personal Care Products

Want to reduce plastics and the chemicals in your home while saving money? Many common household products are easy to make yourself with cheap, everyday ingredients. Participants will learn about plastic free living and make their own eco-friendly samples to take home and try. This session requires kitchen/microwave access and screen for presentation.

Approx. 90 minutes, max 25 participants

First session $795+GST
Consecutive sessions $450+GST

Paper-making

A hands-on introduction to resource recovery, material science and environmentally conscious choices. Participants make their own recycled paper to take home. A wet area is recommended for this activity.

Approx 60 minutes, max. 30 participants

First session $585+GST
Consecutive sessions $325+GST

Beeswax Wraps

Encourage environmentally and economically conscious thinking while creating a plastic-free alternative to cling wrap. Participants make and take home a re-usable, plastic-free food wrap.

An enclosed, ventilated, hard floor space is required for safety, with easy access to 2+ power points.

Approx 60 minutes, max 25 participants

First session $575+GST
Consecutive sessions $300+GST

Community tours

Beyond the Kerb Tour

This fascinating bus tour provides insights into material pathways and processing in South Australia. Visit operating commercial sites, and hear from industry professionals.

3-Bin Tour*

Follow your three kerbside bins to their ultimate destinations! Learn about how the waste streams are processed, common contaminants and have your tricky questions answered.

Tours can be customised to meet the interests of your group.

Full day tour $1500+GST

A bus and driver is required for tour – price is exclusive of bus hire.

*3-Bin Tour availability dependent on Council area.

Tour Feedback

'It was very informative and gave one a huge appreciation and understanding of the recycling industry.'

'I feel much more positive about what we are doing after this informative trip and also have a greater understanding of what needs to go where! Awesome.'

'From start to finish the process was fantastic. Humour, insight, passion, friendliness - all top notch. I'm very thankful to have been given the opportunity and I'm hopeful it will help me on my journey to increase society's use of recycled materials.'

With generous support from our partners, the following waste streams may be explored:

- Landfill
- Specialty plastics
- Organics
- Metals
- Electronics
- Alternative fuels
- Mixed Recycling
