Waste & Recycling Education
Early Years
2026

KESAB *environmental solutions* is SA's longest-standing sustainability not-for-profit and remains focused on upstream behaviour change. Our sessions are delivered by a passionate team of experienced and qualified educators and sustainability specialists.

environmental solutions

Incursions

KESAB offers sessions suitable for preschool-aged children, staff and families. We can help you to:

- Introduce your students to concepts of waste and re-use
- Support your staff in good waste management practice at your site
- Engage your families with targeted sessions focused on reducing lunchbox waste

Nude Food Demo

Practical demonstrations for simple, economical and family-friendly nude food lunchbox items.

Includes tasters and may allow for participation (site dependent).

Approx 30 mins. Maximum 25 participants.
Suitable for families

First session $495+GST
Consecutive sessions $185+GST

Access to a teaching space that has a demonstration table and space for audience seating. Access to power points and hand washing.

Recycle Rhythms

This activity walks children through the journey of the kerbside bins via visual Big Books and an interactive bin game.

Using rhymes to help them remember, children place materials into coloured bins, tailored to your site.

For best results, we recommend working with a half class at a time.

Approx 30 mins x 2 (half class)
or 45 mins (whole class)
Suitable for children ages 2+

First session $360+GST
Consecutive sessions $195+GST

Resources

Composting and/or Worm Farms

Our compost and garden gurus can visit your site to demonstrate how to establish and maintain a healthy compost or worm farm.

A great session for outdoor learning environments, this workshop can also be run as an indoor presentation.

Our garden guru can advise on compost or worm farm systems best suited to your site.

Approx 45 mins
Suitable for staff and students

Price: We are proud to partner with The Australian Worm Firm to deliver our Early Years Composting and Worm Farm sessions. Price on application.

Big Book Series - The Journey of My Bins

This series of books outlines what happens to the bin materials collected from home or your site. Each book covers a bin – waste, recycling, green organics and the Journey of My Bins.

Available for free download on www.wow.sa.gov.au

Mini Bln Game

The Mini Bin Game includes miniature versions of your bins, and picture cards of items to be sorted.

Purchase $66+GST
Postage and handling may be applicable

Site Support

Prices on application

Bin Systems / Usage Assessment

A guided walk-through of your site providing opportunities to identify contamination issues and potential improvements, explore ways to improve material separation, reduce materials to landfill, improve and encourage student ownership for resource management.

Staff Professional Development (PD)

Professional development sessions provide staff with an enhanced understanding of resource management in SA, site-specific and 'tricky waste' information, and ideas for resource management at your site.

Resource Recovery Tours

KESAB conducts staff tours of resource recovery and recycling sites. These provide a deeper understanding of where materials go after collection, and how resource recovery fits within the circular economy.
